

Week A: April 21 – April 25

Key Points Discussed:

- Group began coordinating project responsibilities.
- Scheduled Zoom meeting for April 24 at 5:15 PM to finalize test content and project structure.
- Discussed suitable historical facts for factual accuracy testing.

Decisions Made:

- Each member confirmed availability and contributed ideas for test case development.
- Clarified AI system selection:
 - Harper: ChatGPT
 - Himani: Gemini
 - Jennifer: Llama
- Agreed to use debated or nuanced factual examples for more effective testing.

Challenges Identified:

- Difficulty aligning on test case examples (e.g., George Washington's birthdate vs. more contested facts).
- Resolved by choosing more appropriate scenarios (e.g., Battle of Lexington).
