Week B: April 27 – April 29

Key Points Discussed:

- All team members submitted their chat logs and individual analysis:
  - Harper (ChatGPT)
  - Himani (Gemini)
  - Jennifer (Llama)
- Final report assembly and communication logs initiated by Jennifer.

Decisions Made:

- Jennifer confirmed she would finalize and submit the project before April 30.
- All submissions accepted in either Microsoft Word or PDF format.
- GitHub folder structure reviewed, and files uploaded.

Challenges Identified:

- Minor delays in submission timing, but all final components were completed and submitted.
- Himani initially had issues uploading to GitHub, which were resolved with Jennifer's support.
